

□ ELECTRO-HYDRAULIC POWER UNIT GEN4 | HRP-BAT-4

Two-button control interface,
Provides an easy return point for
quick manipulation

Quick-connect
hydraulic fittings
for seamless
tool swaps

The GEN4 Hydraulic Power Unit
delivers 690 bar of hydraulic
pressure, powered by DeWalt 60V
FLEXVOLT batteries for up to 300
breaches per charge.

MIL-STD-810G tested and field-
proven by the USMC, USAF and
NYPD ESU, the GEN4 Power Unit
offers unmatched reliability,
performance and safety for any
mission.

MOLLE tool
holders offer
convenient
tool storage

The custom FirstSpear backpack
design allows high, tight wear
for enhanced mobility without
interfering with other tactical gear

Noise-canceling enclosure:
just 57 dB at full pressure

Laser-cut
MOLLE slots

Weight with battery	9.75 kg
Dimensions	17.1 × 25.4 × 34.3 cm
Remote control	Hose-mounted
Battery	60V lithium-ion battery
Working pressure	690 bar / 10000 psi

□ LONG STROKE HYDRAULIC DOOR PUSHER | HDP11

The HDP11 Long Stroke Door Pusher is a powerful hydraulic breaching tool designed for tactical operations. Compact, lightweight and built for speed, the HDP11 offers reliable performance in high-stakes breaching scenarios.

FEATURES

- Ultra-thin gapping blades (2.5 mm)
- Stair-step blade design
- 28 cm stroke
- Gas spring retraction mechanism
- Swivel hydraulic hose connector
- Ergonomic foam-covered grab handle

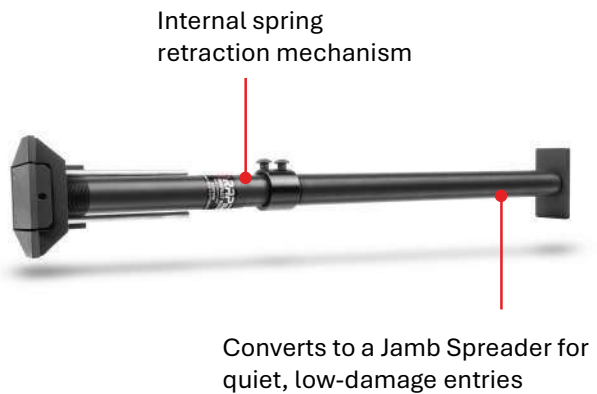

Weight	5.6 kg
Dimensions	127 × 101.6 × 457.2 mm
Stroke	279.4 mm
Pushing force	4535 kg
Working pressure	690 bar / 10000 psi

□ 10 CM DOOR PUSHER | HDP4

□ JAMB SPREADER BAR | JS41

The HDP4 + JS41 Hydraulic Door Pusher and Jamb Spreader is a versatile 2-in-1 breaching tool designed for heavier breaching applications. Built from heat-treated steel and featuring quick-connect hydraulic fittings, it is compact, durable and ideal for inward and outward swinging doors.

FEATURES

- 2-in-1 tool: Door Pusher and Jamb Spreader
- HDP4: approximately 10 cm stroke for inward and outward swinging doors
- Jamb Spreader (JS41): ideal for wellness checks or covert missions requiring minimal noise and little structural damage
- Internal spring retraction mechanism
- Quick-connect hydraulic fittings
- MOLLE-compatible storage and hands-free operation

HDP4 (Part 1 of the 2-in-1 RatSpreader)

Weight	3.2 kg
Dimensions	264 × 114 × 98 mm
Stroke	102 mm
Pushing force	4535 kg
Working pressure	690 bar / 10000 psi

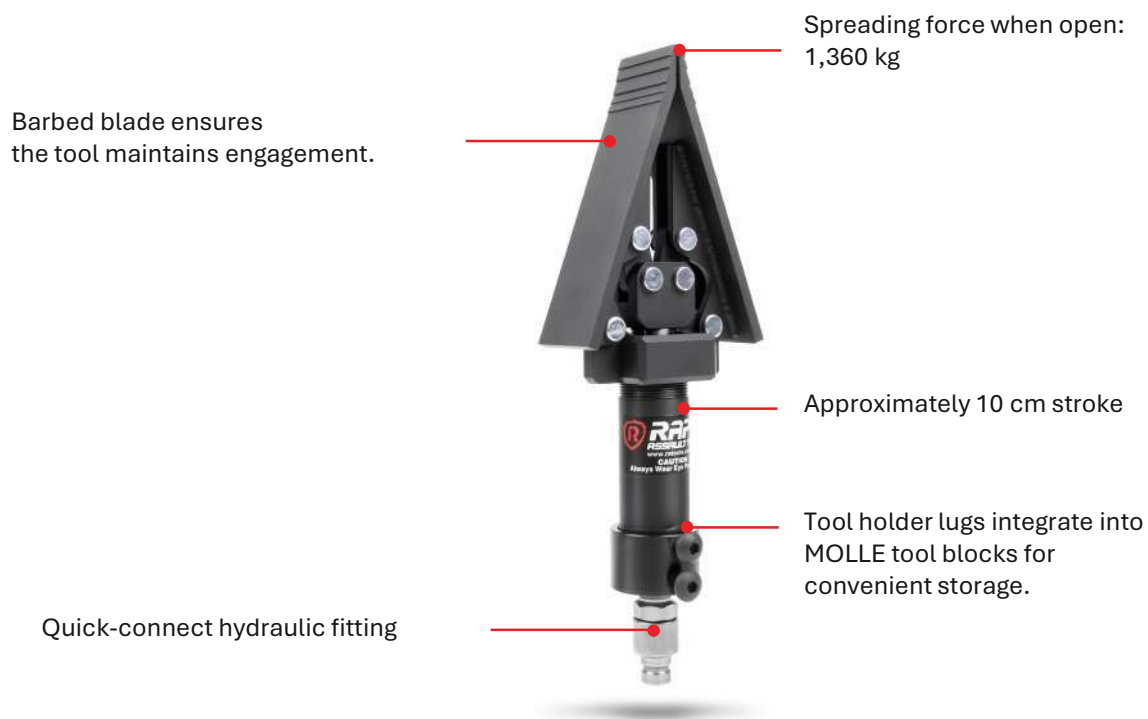

JS41 (Part 2 of the 2-in-1 RatSpreader)

Weight	2.6 kg
Length (min. – max.)	660–1041 mm
Pushing force	4545 kg
Working pressure	690 bar / 10000 psi

□ HYDRAULIC SPREADER | HS4

Included in HRP4 Kit.

The HS4 Hydraulic Spreader is a compact breaching tool designed for light vehicle extrication, sliding door removal and window grill dismantling. Built from durable steel and compatible with GEN4, GEN3 and manual pump power units, the HS4 is highly maneuverable and ideal for medium-gap breaches in tactical and rescue operations.

FEATURES

- 1,360 kg spreading force
- Approximately 10 cm stroke
- Compact and lightweight design
- Durable steel construction
- Quick-connect hydraulic fittings
- Lossless hydraulic fittings

Weight	3 kg
Length	336 mm
Arm width	508 mm
Working pressure	690 bar / 10000 psi
Closed blade height	4 mm
Extended blade height	109 mm
Rated load at blade tips	1360 kg

□ HYDRAULIC BOLT CUTTER | HBC30

The HBC30 Hydraulic Bolt Cutter delivers powerful cutting performance in a compact design. Quick-change, heat-treated steel blades feature a safety mechanism to prevent fractures, ensuring durability and efficiency in the field. Ideal for tactical and industrial applications, it cuts locks, fences and rebar in high-pressure situations where reliability is key.

FEATURES

- Powerful cutting force
- Compact and lightweight design
- Quick-change, heat-treated blades
- 690 bar power unit required
- Seamless integration into the tool system

Weight	3.1 kg
Dimensions	213 × 184 × 59 mm
Cutting capacity	at high material hardness (HRC40) 7 mm
	at low material hardness (HRC20) 13 mm
Cutting force	18143 kg
Working pressure	690 bar / 10000 psi

□ LARGE HYDRAULIC BOLT CUTTER | HBC36

The HBC36 Hydraulic Bolt Cutter delivers powerful cutting performance in a compact design. Quick-change, heat-treated steel blades feature a safety mechanism to prevent fractures, ensuring durability and efficiency in the field. Ideal for tactical and industrial applications, it cuts locks, fences and rebar in high-pressure situations where reliability is key.

FEATURES

- Enhanced cutting power
- Larger cutting capacity
- Quick-change, heat-treated blades
- Compact and maneuverable

Weight	4.2 kg
Dimensions	269 × 200 × 51 mm
Cutting capacity	at high material hardness (HRC40) 8 mm
	at low material hardness (HRC20) 16 mm
Cutting force	19300 kg
Working pressure	690 bar / 10000 psi

□ HYDRAULIC REBAR CUTTER | HRC625

The HRC625 Hydraulic Rebar Cutter delivers 7.1 tonnes of cutting force in a lightweight, 2.8 kg design. High-grade tool steel blades and a guillotine-style cutting action ensure precise, jam-free cuts on wire rope, rebar and steel cable. The hinged head captures material easily, while internal spring retraction allows rapid consecutive cuts. Compatible with GEN3, GEN4 and manual pumps, with quick-connect fittings for seamless operation. The field-replaceable blade can be changed in seconds, making it ideal for tactical, rescue and industrial use.

FEATURES

- Durable tool steel blades
- Guillotine-style cutting
- 7.1 tonnes cutting force
- Hinged head secures material for efficient cutting
- Lightweight and portable, ideal for confined spaces and easy transport

Weight	2.8 kg
Dimensions	235 × 86 × 64 mm
Cutting diameter	16 mm
Cutting force	7076 kg
Working pressure	690 bar / 10000 psi

□ REMOTE CONTROL | HRP-BAT-4-REMOTE-OPTION

The optional Remote Control System enhances operator safety and flexibility by enabling standoff operation of the GEN4 Electro-Hydraulic Breaching Kit without changing established workflows. The compact, ruggedized transmitter features dedicated ADVANCE and RETRACT buttons that mirror the two-button control interface on the GEN4 Power Unit, ensuring intuitive operation under stress.

Ruggedized transmitter

FEATURES

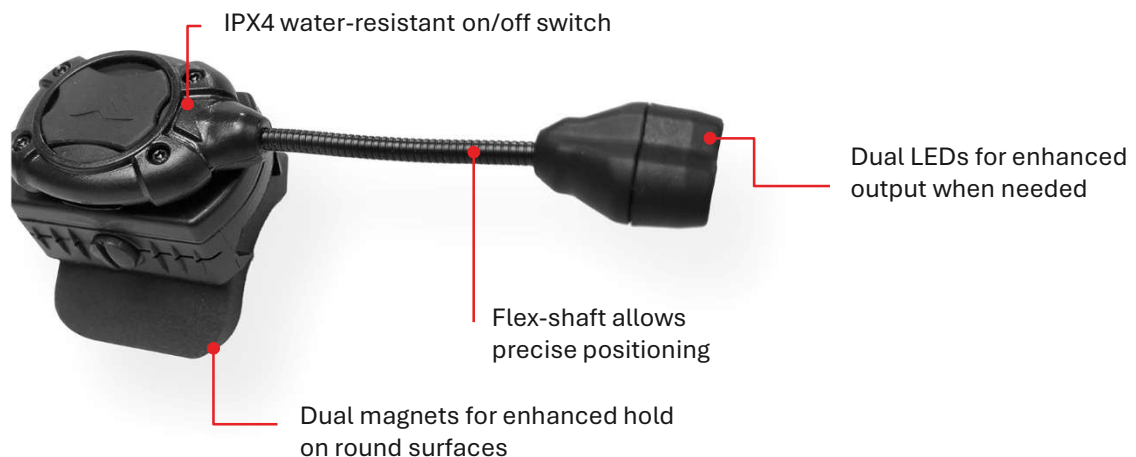

- Maintain distance from the breach point while retaining precise control
- Reliable operating range of up to 100 meters
- Factory pre-paired system for immediate deployment
- Compatible with previously fielded GEN4 Power Units

Receiver fully integrated within Power Unit

□ TOOL LIGHT | HTL-1

The HTL-1 Tool Light integrates seamlessly with Rapid Assault Tools breaching equipment, providing hands-free illumination in low-light environments. The Princeton Tech MPLS light is available in white, red or IR. A custom magnetic Picatinny mount allows easy repositioning without interfering with tool operation. Compact and versatile, the HTL-1 ensures optimal visibility during tactical operations while maintaining tool efficiency.

HYDRAULIC BREACHING TOOL CASES

The Rapid Assault Tools Hydraulic Breaching Tool Cases by Pelican are rugged, waterproof and dustproof storage solutions. Custom-cut foam securely holds the GEN4 Hydraulic Breaching Kit components. Built for durability and mobility, these cases protect your tools in transit and on-site, keeping your equipment mission-ready in the toughest environments.

□ HYDRAULIC TOOL CASE 1 HTC-1

Holds:

- GEN4 Power Unit and 60V fast charger
- Two DeWalt 60V 6Ah batteries
- HDP11 Long Stroke Door Pusher or HRC625

□ HYDRAULIC TOOL CASE 2 HTC-2

Holds:

- HDP11 Long Stroke Door Pusher
- HDP4 + JS41 Door Pusher and Jamb Spreader Combo
- HS4 Hydraulic Spreader
- HBC30 Hydraulic Bolt Cutter
- HBC36 Large Hydraulic Bolt Cutter
- HRC625 can be stored in place of HDP11

Tools are not included with the cases.

KIT CONFIGURATIONS

The following kits offer various configurations of the Power Unit and tool attachments to suit your mission requirements.

Kit	Description	Included part numbers
HRP-BAT-4	GEN4 Power Unit in backpack, two batteries, charger and hose assembly; no tools	HRP-BAT-4
HRP1-BAT-4	Long Stroke Door Pusher with GEN4 battery-powered pump in backpack	HRP-BAT-4, HDP11
HRP2-BAT-4	2-in-1 RatSpreader™ with GEN4 battery-powered Power Unit in backpack	HRP-BAT-4, HDP4 + JS41
HRP3-BAT-4	2-in-1 RatSpreader™ and HBC30 with GEN4 battery-powered Power Unit in backpack	HRP-BAT-4, HDP4 + JS41, HBC30
HRP4-BAT-4	2-in-1 RatSpreader™, HBC30 and HS4 RatWedge with GEN4 battery-powered Power Unit in backpack	HRP-BAT-4, HDP4 + JS41, HBC30, HS4
HRP-BAT-4-PRO	GEN4 Electro-Hydraulic Breaching Kit Pro Model with seven standard hydraulic tools, remote control, carry cases and spare blades	HRP-BAT-4, HDP11, HDP4 + JS41, HBC30 (including spare blades), HBC36 (including spare blades), HS4, HRC625 (including spare blades), HRP-BAT-4-REMOTE-OPTION, HTC-1, HTC-2, HTL-1
