

Allows for common breach methods found in high speed and deliberate room clearing scenarios.

This multi-breach door allows for the following breach types:

- Locked/unlocked lockset/deadbolt
- Sledge hammer
- Battering ram
- Halligan [inward & outward]
- Hydraulic tool [inward & outward]
- Ballistic Magnetic lock (Optional)
- Hydraulic door closure Optional)

Locking Block:

- Low cost 2"x6" wood insert can be cut and drilled onsite
- Custom drill jig included with door for onsite fabrication
- User can install real locksets/deadbolts OR install low cost pins
- Deadbolts provide realistic training and are reusable
- Preassembled inserts can be purchased in bulk at low costs

Door can be configured to be right-hand or left-hand swing

Built around a lightweight, reusable breaching panel, this door system supports a wide range of breaching techniques including ballistic breaching, halligan prying, hydraulic pushes, and hammer

Options:

- Built - In
- Freestanding
- Magnetic Lock
- Deadbolts provide realistic training and are reusable
- Hydraulic Closure

SPECS. & MEASUREMENTS

Frame (H × W × D)	202 × 95,5 × 10 cm
Impact Plate	28 × 72 × 1,5 cm
Weight	131,5 kg
Coating	Flat black powder coating
